# DRY RESOLUTION

The resolution enacted by Congress to submit national prohibition to th States may be rescinded.

According to a statement this m ing by the Anti-Saloon League, the validity or invalidity of this resolution revolves around what constitutes a quorum of Congress. This will be thrashed out when the quorum question is submitted for a decision to the United States Supreme Court.

Attorneys representing liquor interests contended that two-thirds of Congress meant two-thirds of all members elected, the Anti-Saloon League statement says, and the Anti-Saloon attorneys held that a quorum meant two-thirds of the member

present and voting.

A decision by the Supreme Court that a quorum is two-thirds of members elected would make invalid the law to submit national prohibition.
